Near MPL Institute Mohammadpur Bastaur,
Moradabad, Uttar Pradesh, Pin Code 244001, India

Factory Area :-10033.52 Square Meter
Home Décor For Less

The Story of Sabri's Family's

It was 1984 when my grandfather Mr. Munawwar Sabri started making brass items and he sold locally brass products in Moradabad Market Name is Mandi Chock. This was in 1995 when my father started working with my grandfather . My father got the goods made from my grandfather and put them on his bicycle and took them to the market and then sold the goods. Then the demand for our products starts increasing in the market , then our business started growing slowly and then it was the year 2005 when my father started building SS Company , then we started local supply of our product across in India. From the time to time, we expand our items range and now we have approximated 25000 of articles in different range . My name is Sameer Sabri , my younger brother name is Suhail Sabri. Then we both brothers together opened a company named **DIOR EXPORT** which we get experienced from our ancestors and go ahead our legacy accords the global market, then we got a boost from the company **DIOR EXPORT**. We respect our artisans a lot and we consider them as our family members because they play a big role in building trust on **DIOR EXPORT** of foreign buyers, **DIOR EXPORT** is a ray of hope that your dream can helping come true.

The biggest role behind our success is my mother blessings .
